OUR TOWN.

There are fancier towns than our little town, there are towns that are bigger than this; and the people who live in the smaller towns don't know what excitement they miss. There are things you see in the wealthier towns that you can't in town that's small, and yet, up and down, there is no town like our own little town, after all. It may be the streets through the town are not long, they'te not wide and maybe not straight, but the neighbors you know in your own little town always welcome a fellow-that's great! In the glittering streets of the glittering town, with its palace and pavement and thrall; in the midst of the throng, you will frequently long for your own little town, in spite of the fact that it's mall, you'll find it a fact that our little town is the best little town after all.

#### OPENING OF OUR PUBLIC SCHOOLS MONDAY.

On Monday next, September 8th the public schools of the city of Bay St. Louis, three for whites and one for colored, will open for the 1924-25 scholastic year, and from a conversation with the city superintendent it is apparent a busy session is ahead. It is proposed to improve the curriculum by detail treatment, to introduce innovations that will encourage more and better work, and in every way it is intended to give the boy and the girl a better chance to fight life's battles in later years. It is a pity the pity is not supplied with a building that would afford better equipment and more adequate means. The present frame building, in a measure, is not only a fire hazard, and all too new, but there are no modern facilities. new school building, modern and of ample room, would indeed be an incentive for better work, and the public, like teacher and puil, would take all the more interest, with better result. However, even though

#### PARENTS GET ACQUAINTED WITH TEACHERS.

lacking the new school building and

equipment, an active year is ahead,

notwithstanding handicaps.

By the time this is in print hundreds of parents around Bay St. Louis will have turned their boys and girls over to the school teachers of this territory. For several months each year your teachers have more to do with your sons and daughters than you have yourselves. That is a serious thing. Have you thought about it enough? Who are the teachers that are going to have so much to do with YOUR children? Have you taken the trouble to get acquainted with them? Teacherswhen they are good, earnest onesare the most useful people in the world. But they can be of a great deal more use if they have the cooperation of the parents. It is your duty as parent to help the school teacher understand your boys and girls, and when you know them you have faith in them. Help them by teaching your children the duty of respect and obedience, for it is your fault, not the teacher's, if your children ignore these two important ance." things. So get acquainted with the teacher and you'll soon find it has been a good thing for both of youand a better thing for the pupil.

#### A STEAMBOAT SERMON.

We see a news item to the effect that the pastor of a New York church accompanied members of his congregation on a steamboat excursion up the Hudson river, and during the ride the pastor preached a sermon. He didn't pick a high-brow text and rant about international relations or sex problems—he merely asked the question: "Are you glad you were born?"

We hereby pass the text on. It is a pertinent question, and if you are truly glad that you were born, then it is well with you and well with the world because of you. The pastor contended that joy in life is found in the opportunity to help others solve their problems. He believes it is a great thing to come into the world for a purpose, and to find out what that purpose is. He argued that a little kindness, a helpful word, a little service, may assist in the rebuilding of a life struggling at the verge of despair.

It was an old-fashioned sermonthe kind that has saved the world up to this present hour, and when they returned home from that excursion members of the congregation urged. the pastor to preach more of the same kind. "We don't want highbrow stuff," they said, "we don't want you to preach just to show how learned you are: we want something that satisfies the heart and gives us ease and comfort." And believing looking for in their church services garding road building. The prowe hereby commend the "steamboat gram is extensive and thorough. sermon," or sermons of this type, to the ministers of this section of the

#### BEING A FIREBUG NATION.

News reports of the recent milliondollar sawmill fire at Hoquiam, Washington, say: "Covered by insurance. Everybody breathes easy, for there is no actual loss."

But a million dollars' worth of in wages, profits, freights, in struc-

tures that the lumber would build. wage, every item of comfort that a unpaid. million dollars can buy, is first paid for in insurance rates. Whether you have been a regular firebug in setting forest fires or carelessly burning your own property in city or town or country, the loss of every scrap burned must be paid by someone.

Unless restored by insurance, est on \$3,850,000. every item of property destroyed by fire is gone forever, and the nation is that much poorer. Estimating a human life by the wages it would earn, life comes terribly high. Any one of the 15,000 lives destroyed annually by fire may be worth tens of hundreds of thousands of dollars. So with property, estimated by its usefulness, even though its physical value is covered by insurance.

Insurance only spreads and equal izes fire or death losses, so that the few do not go bankrupt while the many go unscathed. Most of the \$500,000,000 annual fire losses of the United States are preventable. They need never occur. If normal business and home life could have the proportion of that sum that is paid out for preventable fires every year the United States would soon hardly know itself in its new era of decorum and prosperity.

Being a firebug nation is hardly decent. The majority of fires are preventable. It's time for our coun try to save property that is utterly, foolishly wasted, that is so wrongfully said to be "covered by insur-

#### LOCAL TALENT IN PUBLIC.

It was noted in the news columns of The Echo last week that at a public presentation on two evenings of a notable screen production local talent supplied the music. There was the indispensable piano, the caressing tones of the violin and the stand. sympathetic notes of the vocalist. While the picture delineated the impulses of loves and the pathos of sacrifice and the irony of fate, one was held spell-bound as it were with pent-in feelings; with eyes that welled and heart sladened, nevertheless this did not detract from the music. On the contrary, the music was an integral part of the evening's entertainment, and the praiseworthy remarks heard were not amiss.

That there is local talent in Bay ting larger. St. Louis there is no doubt. There is considerable. We have instrumental and vocal musicians, whose music is heard all too little. Boys and girls and later men and women who have studied and striven to heights above the mediocre, arrive seemingly to no purpose. The truth is there is little or no encouragement, or possibly no occasion to exercise the development of one's talent for the pleasure and profit of the listener. Other communities have literary clubs, music clubs and other like organizations, and the public largely the gainer. Majestic organs and trained voices for choir work have aided largely in the work of the Sabbath morn. We hope to hear more from our local talent, either in privete or public places.

In time Hancock county will lead that is exactly what our people are all other counties in the State re-

> Building is the order of the day. Bay St. Louis is by no means the exception.

## BAY ST. LOUIS SPORTS.

L'ABOR DAY AT VICTORY.

Moran Pepeats Over Cameron-Corcoran and Malini Fight Draw. Seating Capacity to Arena Taxed by Crowds.

The delebration of Labor Day was fittingly carried out according to program by the local Post of the Ameri an Legion last Monday evening, when Promoter Capdepon put on three prelims, a good semi-final and a rattling main as the culmina- ing several hard hooks and jabs, one tion feature of the day.

The exhibition was put on before a house of red-blooded fans, who packed the arena, occupying every jew and returned with a hook to the available inch of the seating room sore optic, forcing Harry to cover and overflowing to the ground; in fact, it was a difficult matter for any one to step, about the place without good eye, the other swelled and walking on fans.

and orderly crowd that patronize the Victory. The kind, that appreciate not connect, Moran coming in cov the Legion's effort to entertain, but ered up, taking a few to land a who crave action and are happiest hard one. when the other guy is being slammed for a row of slapjacks.

#### Moran Wins Decision.

The main bout between Nolan "Young" Moran, of the Pass, and Harry "Kangaroo" Cameron, Kiln, went the whole scheduled distance of eight rounds, with Referee McDonald awarding the decision to Moran at the final bell.

Moran emerged as winner, but his margin was much less than when the two met a few weeks ago.

Camero nentered the ring shortly offer Moran; about his head was a state. His condition appeared as who comes back and throws over a anything but pink; he seemed more right cross to jaw that would have the squared circle path in half conwas no doubt that is just what Cam- it. TRACTION LINE HAS NEW SER VICE TO LONG BEACH,

Recently the G. & M. C. T. Co. put on car service from the Day Drug Company place, on 13th street, in Gulfport, by the way of 11th street line down the back way to Long Beach. Cars run on this line every half hour, leaving the drug store 15 minutes after and 15 minutes before the hour.

The service began last Thursday in an experimental way, but it has been found, said Superintendent Dalier. to be a success. People from Long Beach are using the car extensively, as are others, and both the Traction Company and the people are highly pleased with the service.

A force of men are now at work clearing the right of way and putting up poles between Long Beach

law by all means should be observed. otherwise accidents will occur and in order to prevent this we now ask several utility properties in Missis- the officers to enforce this law strict-

> Our attention has been called to fire exits at all public places and places of amusement. We have not 🕏 had sufficient time to look into this ? matter, but refer the matter to the sheriff and ask that he look into the matter and see that all laws are observed in this respect.

> There has been much evidence before this grand jury as to the waterworks of the city of Bay St. Louis. We have listened to this evidence and all of it. The complaint seems to be general. We find that the system that was in use by the city was defective and one that should not have been used. We further find 🕻 that they have changed this system 🕏 and are using another system. We are not aware of the working system, but recommend that any system 🕏 used by them should provide for a 3 check on the collections by the city & secretary. This should he adopted to protect the public and in justice to the officer doing the collection.

Much evidence was produced as to the work done by the water superintendent, and his method of keeping the accounts of the city on money collected. Our examination has 🕏 shown that the system of books kept by him were poor and defective and deserves much criticism. We find of July aggregated 8,949,363 feet; that the city has, however, received crushed oyster shell shipments for all moneys due it by him, and if same period reached total of 543,120 there was any money due the city not turned in when the auditor ex-Tupelo: Mississippi Power and amined the books that it has all been

## Fire-safe—and more!

F course Genasco Latite Shingles are fire-safe. You wouldn't buy any roofing today that wasn't. But you don't buy roofing for fire protection only. You demand WEATHER protection.

Genasco Latite Shingles weather all weather. The sun can't curl them. Frost can't pry them apart. Wind can't tear them off. They lay tight and stay tight because they're locked tight.

Let us show you their locking-on feature—how they give you protection against fire—why Trinidad Lake Asphalt Cement gives them such extraordinary resistance to wear and weather.

#### BAY ST. LOUIS AND VICINITY

يو يو يو LOCAL FLASHES

\* \* \* Facts and Fancies.

x x x

Traveling through Georgia and Alabama recently, Chas. A. Frickie, resident of Bay St. Louis, relates many incidents, trivial and some more interesting than the other. it was evident he wished to impress feeling. how cold they were. Outside of his shop was this sign: 'Watermelons as Cold as King Tut.'"

Mr. Frickie says it was not a very long time ago, when he was serving in the capacity of cashier and general manager of Lynn Dinkins branch bank at Kenner, La., he noticed outside the building, on an intensely cold morning, a darkey, hud- C. A. BREATH MOVES TO NEW dled up and sitting beside a fire of doubtful proportion and warmth. Presently he called to the darkey and offered him a warm cup of coffeel and bread. "Boss, this sure am fine; you've saved my life, and I'd do anything for you?" "Where are you from and what are you doing here," queried 'Mr. Frickie. "I'm from Honey Island and on my way to find work in the sawmills here-

Mr. Frickie told his man the mill was at Hanson City, only three miles away, and later exerted every effort to suggest his departure, but the darkey had taken root, and there was no telling what this inhabitant of the questionable region of Honey Island wanted or intended. Possibly another cup of hot coffee. Mr. Frickie speculated, might get the man off, but even this expediency

failed. Finally Mr. Frickie took advantage of the darkey's willingness to do anything he was asked to do and he resolved upon a little strategy. This was what he said: "Sam, I'm a doctor; I want you to help me in prietor, did all the electric wiring H. Viavent, New Orleans, La.; H. R. Reed the next room to lift a box. But it and other equipment of th ekind, McNeil, Miss.; II. N. Vinal, Washington is very important that you do not let impress this fact on your mind most ing. Extensive plumbing throughout F. T. Buckley, New Orleans, La.; W. solemnly." "Alright, Boss; but the building adds to its comfort, A. Hart. Horace Hinds. Chicago, Ill.; C. what's in this hyar box?" "Nothing but a corpse; the body of a man who · died twenty years ago in New Orleans; I assure you it is free from odor and perfectly safe to handle, and—" At this juncture the darkey had fled and Mr. Frickie was at liberty again and became busy in the interest of the day's work.

Our sister city of Waveland is appreciative of the Bay St. Louis Fire Department. This is best proven by the liberal contributions that have come from that section and patroncities of the Coast will continue.

. . . .

the extent of meeting the tax burden having a large time. and the city has taken a new life of progress unprecedented, to say nothing of the feeling of security and the confidence thus created by permaneht protection from encroachment and other damage by the warring elements of wind and wave. It has Hancock county convened in Bay been noted too, realty values off the St. Louis Monday morning, with beach front have advanced in value Judge D. M. Graham on the bench, of equal ratio. This is perhaps one Attorney Cowan representing the of the strongest arguments for the State, and local officers in their ac-

fact, as a friend notes, there is little or no more property for sale on the beach front. The front of the city has been sold, and one will have to look elsewhere or pay the present! price. However, the peak has not as yet been reached:

ed in the fact the city of Bay St. Louis proposes to build a dwelling on the premises of the waterworks plant, for occupancy by the maintainer and family. Plans for the structure were drawn by Ferdinand Ramond, local builder and contractor. who has had considerable work and held various responsibilities for intention of the city is to have the maintainer of the waterworks plant live next to his job. In case of emergency this would be of inestimable value, besides the attention necessary for the plant would never want.

This dwelling, according to plans on file with Secretary Ladner, calls for a structure of practical construction and attractive appearance. A porch of liberal size to the front, a 10-foot hall running through and rooms on both sides, with necessary equipment to make it an ideal and comfortable home. It is also plan-

ANNOUNCEMENT INTRODUCING SIXTY-FIVE ORPHANS TO VISIT BRO. MACARIOUS.

New Head of Local College Wishes People of Bay St. Louis Continue to Consider St. Stanislaus as Their

An official formal announcement has been issued from St. Stanislaus College, introducing to the people of Bay St. Louis Bro. Macarious, new president of the College, succeeding Louis seashore, the same as other Bro. Lambert, assigned to St. Vincent's Academy at Baton Rouge, La.

In part the announcement says: "The new president greatly appreciates the close relations that exist between the college management and the good people of the Bay. He "Speaking of signs," he says, "one wishes to help foster that good spirit struck my attention. It was in front and is ready at all times to help for the best interests of the city and the of a small shop. Among other things the best interests of the city and the proprietor sold watermelons, and growth of good will and friendly

> "He wishes that the people of Bay St. Louis continue to consider St Stanislaus as their pride and to keep in close touch with all its activities,

"He will continue to keep up the high standard of scholarship and character, building so efficiently carried on by Bro. Lambert.'

### BAY ST. LOUIS.

Benefit Card Party Next Thursday to Raise Funds to Give Entertainment to the Motherless and Fatherless.

Arriving here next Monday, sixtyfive orphan children, between the ages of 3 to 14 years, inmates of the New Orleans Female Orphan Asylum, will spend ten days at the Bay St. children not so unfortunate.

It is for this purpose, in order they may be entertained, a card par ty will be given at the Bay-Waveland Yacht Club on Thursday afternoon of next week, beginning at 2 o'clock, under the auspices of Catholic Neighborhood Circle No. 1, of which Mrs. R. W. Sistrunk is head. The club met Wednesday at the residence of Mrs. Jos. Ritayik, on the Waveland beach front, and plans for the benefit were discussed and perfected. No cause than that of the orphans could be more appealing.

After the meeting Mrs. Ritayik, as hostess, entertained informally the ladies of the Circle.

BANK BUILDINGS.

Bay St. Louis is justly proud of its various private and public institutions. There might be none better elsewhere, but we do know ours are just as good as the best. Visitors to this city have been impressed with the primary fact of two banks existing in our midst. They ask "Where is the business?" "Where do you get it from?" They fairly marvel when figures are produced, for these never lie. Published and sworn to statements show one bank has reached a limit of over two million dollars in resources, while the other is gradually climbing the million mark, the latter a younger concern. Both banks in a measure are the very backbone of the community. They are more than a mere place where men and women put their money and in turn draw it out. These banks, are institutions that foster by financially backing almost every enterprise, every improvement and movement for the material upbuilding and betterment of the place. More than one successful enterprise and more than one individual owes in a measure his success to the finan cial start given him by either one of the two banks or possibly to both The Bay St. Louis banks represent essential elements that go to make city and the success of its citizens.

So well have these banks prosper ed by their liberal and progressive policies and by individual effort of the men behind them who have managed with business acumen and ad ministration judiciously applied, that long ere this have they shed their swaddling clothes and passed the experimental stage. This is best prov en by the fact of a little restrospec-

The Hancock County Bank grew from the most humble of beginning. housed in a building that at first was well nigh inhabitable. Then came the more substantial and conventional bank building, and last year the interior was remodeled and refitted in marble of sublime beauty. Other fixtures of commensurate mien and cost were placed in lieu of others now considered primitive.

The Merchants Bank and Trust Company a few years later was launched on a perilous sea, and, like the other, in a rented building; with a merchant's safe and no vault, to say nothing of fixtures practically improvised. It, too, with the town prospered, and later was housed in its own handsome building and improved as the years went by. But it did not stop Here, for at present we note the finishing touches are applied to an interior where the fixtures are of marble and solid bronze in fact ahead of the town. But Bay St. Louis is growing at such pace that it will not be long the condition will be met by the demand. The interior of both banks are marvels of dignified beauty and give every look to an immediate future of more evidence of solidity. We can well than the ordinary. Hence Bay St. Louis is justly proud of its various private and public institutions, for they have well kept the pace of pro gress and prosperity. One can well anticipate the future.

#### HERE'S COMFORT IN CONTEM-PLATION.

and we know not how hotter the well for the friendly disposition i next day is going to be, the following article, from the Winona Times predicting a summer "with snow. meantime the weather is the Lottest

"According to the observation and calculations of Herbert J. Browne. master of ocean meterology, and whose forecasts for the six months of this year have proven more than 95 per cent correct, the year 1926 will be a 'year without summer' like the memorable year 1816—with frost and snow and ice every month in the year. Unsettled and colder, is his prophecy for the coming year. A colder winter, a colder summer, with stances meaningless, carried by some treme drought to extreme rainfall. And then 1926-1927 will come the year without a summer, like 1816, month in the year.

"The safety line of the rain production, Mr. Browne predicts, will retreat southward, probably as much both fitting and becoming, that in as 280 to 300 miles and all crops future Pullman cars going through

#### TRAIN TO STOP AT CLERMONT

A matter has been put up to the Mississippi State Railroad Commission that should never have reached that stage. It appears to us the BAY ST. LOUIS, BANKS AND right-thinking and more sober minded people of Clermont Harbor, asking for a fast express Coast train to stop there, would not have had the temerity of so asking. That is, if they considered the purpose for which this special train service was inaugurated, the larger points along the Gulf Coast it serves and the larger number of people it thus best

It seems rather selfish to expect a fast train, inaugurated especially to serve certain larger towns along the Coast. to stop at Clermont Harbor, where only comparatively a few reside; where only a clientel of possibly two months or a little more might be served at the expense of > people residing at other points all

While Clermont Harbor has shown remarkable improvement and great strides in its upbuilding are noted, it is yet at its best a small place; a good-sized summer camp on the seashore, and its occupancy in winter

ber of Commerce adopted resolutions asking that the fast train in question do not stop at Clermont. The reason advanced is that only a few would be served at the expense of the many, besides the fast express train, by stopping at Clermont, would defeat the very purpose for which it was created. Further, a delay of fully twenty minutes would result.

If a stop were made at Clermont, we are of the opinion residents of Nicholson Avenue would have equal right to ask for the same, and even at other similar points, including owners, have been lavish to that ex-Henderson Point. On the surface tent of good sense and taste in the of things the proposition is prepos- building of "The Weston," and that terous, and while we deprecate the fact the affair has been brought to the attention of the Railroad Commission it might be well in the last analysis, for we feel certain that body will put a kibosh on the whole proceeding. It is safe to say here that body will readily see the unreasonableness of the request and will not hesitate in its dictum, Do

that the road from Waveland depot to Clermont is in bad condition. We do grant this; it is well nigh impassable. But our friends have taken heroic measures for a remedy. The Louisville and Nashville Railroad Company and the Mississippi State Railroad Commission are not responsible for this condition. An appeal to the proper county authorities would be the proper method and relief would be forthcoming.

## "PASCAGOULA."

Following an organized effort by the citizens of the seacoast town of Pascagoula, Superintendent John Bose, of the Louisville and Nashville Railroad Company, announces the authoritative information that the Pullman Palace Car Company has agreed and will name one of its cars "Pascagoula," in compliment to that city and the Mississippi coast, over which territory the L. & N.'s trunk line traverses 72 miles.

Bay St. Louis congratulates the people of Pascagoula on this achievement and the L. & N. Company for the interest it has taken in the prem-While the country is sweltering ises and the Pullman Company as has trus shown for this section. car carrying the beautiful name of frost and ice" next year. In the a beautiful city is well worth while, and the advertising to be gained

> therefrom will be of mutual benefit. In fact the name of Pascagoula and name of other cities is a big step in the right direction, to say nothing over the improvement in nomenclature adopted by the Pullman Company. Safety is not a one-man job! Despite the precautions that the railroads have employed to safeguard the public against accident, and death, thru warning signals, watchmen, crossing gates, etc., preventable disasters continue to occur.

Do your part in the great safety campaign being conducted by this and other American railroads. Let the trains have the right of way; the tracks were made for them and they cannot change their course to prevent an accident. Wait until the train stops before you attempt to get on or off. Do not use railroad tracks as a passageway or a loitering place. They are dangerous only to trespassers Help us save life and protect against accident. The Louisville & Nashville Rail

road spends nearly a million dollars a year for the single purpose of maintaining constant supervision over the condition of its tracks -850 track walkers are employed and every day they walk every mile of the main tracks of the road; inspecting rails, trestles, bridges, etc. When you are on the train, every precaution is take for your safety. Do as much to protect yourself when off the trains; Common sense—Caution—Ca operation—will pay big dividend in health and happiness.

## Keep Her Cool -and Laying

Hot, fat, lazy hens that are allowed to swelter and sizzle in summer will not lay next winter. Feed your birds a ration balanced for summer. Feed less grain feed—it is heating. Keep your hens cool and comfortable in hot weather and they'll reward you with lots of eggs when winter comes. Feed cooling Chicken Chowder.

## U.S.Royal Cords

BALLOON-TYPE ~ HICH PRESSURE Built of Latex-treated Cords

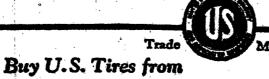

TIRE building took a big step forward when the makers of United States Tires invented the Latex Process.

The added strength and wearing quality given by Latex-treated cords is something that the user of Royal Cords can tell you about from his own experience.

Royal Cords are the standard of value in cord tire equipment—even more certainly today than ever before.

And this holds good whether you are considering a High-Pressure Tire, a Balloon-Type Tire to fit your present wheels and rims, or a Balloon Tire for a 20 or 21 inch wheel.

> **United States Tires** are Good Tires
